PROFESSIONAL SUMMARY

Passionate and results-driven Computer Science student with expertise in programming, AI, and cloud technologies. Adept at problem-solving and collaborating in dynamic environments. Quick learner who thrives on challenges and embraces innovation. Skilled in leadership, teamwork, and adapting to new technologies. Excited to contribute technical and analytical expertise to cutting-edge projects that drive impact and efficiency.

EDUCATION

Malla Reddy Engineering College for Women   Telangana, India
Bachelor of Technology, Computer science (Pursuing)   Since 2022
SR Junior College   Telangana, India
Intermediate Education (Mathematics, Physics, and Chemistry - MPC)   March 2022

PROJECTS

QR-Based Attendance System:
- Developed an automated attendance tracking system using unique QR codes.
- Improved efficiency and accuracy while reducing manual errors.
- Provided a contactless attendance solution for safety and convenience.
- Integrated database management for real-time attendance monitoring and reporting.

Exam Invigilation Duty System:
- Assisted in monitoring and maintaining the integrity of examination processes.
- Ensure secure and fair examination environments, preventing malpractice.
- Developed a reporting module to track student attendance and ensure compliance.

Smart Resume Maker:
- The objective is to build a generative model that can craft tailored resumes based on user inputs such as personal information, job experience, and career goals.
- By analyzing these details, the model produces well-structured resumes that effectively highlight the candidate's skills, achievements, and qualifications.

SKILLS

- **Programming Languages:** Python, Java, HTML, Machine Learning.
- **Data Analysis & Visualization:** Microsoft Excel, PowerPoint Applications (Pivot Tables, Lookup Functions), Tableau, Power BI.
- **Technologies & Tools:** SQL, Data Structures, Canva, GitHub, AI-based Tools, Cloud Computing (IBM Cloud, AWS Basics).
- **Team Collaboration:** Strong interpersonal skills and Time management, facilitation and leadership abilities.
- **Soft Skills:** Self-Motivated, Attention to detail, Strategic thinking, Strong analytical, Troubleshooting and problem-solving skills, Oral and Written Communication, teamwork, statistical solutions and build Scalable skills.

CERTIFICATIONS

- Generative AI Professional Certification - Oracle University
- Programming Essentials in Python (PCAP) - Cisco Networking Academy
- Certifications from Coursera, IBM, Infosys Springboard, Accenture
- Cambridge English Empower Level C1 Certification
- AWS Cloud Practitioner Essentials - AWS Academy
- Software Engineering – Nptel Swayam

ACHIEVEMENTS

- Participated in various **technical and hackathon events**.
- Recognized for **technical contributions in AI and web development**.
- Awarded **Best Project Presentation** in a national-level AI competition.
